

Youth Summer FAQs

Why are summer camps combined next year?

Having a combined camp gives us the opportunity to have all of Watermarks to ourselves and put all our resources into creating an incredible experience where students can encounter Jesus.

Will my middle school student have contact with high school students?

No. Our middle and high school students will be on separate daily schedules. This means all daily activities (free time, mealtimes, evening sessions) will happen at different times, and middle and high schoolers will stay in separate cabins. *We will be sharing the same camp, so there is a limited possibility of students of different ages passing one another.*

What grades can attend camp next summer?

Rising 6th graders through rising 11th graders can attend Watermarks next summer. We have a brand-new Senior Trip at the end of June for our rising 12th graders and 2022 graduating seniors.

Why are seniors not allowed to go to Watermarks next summer?

Our heart behind the Senior Trip is to set up our rising 12th graders and 2022 graduating seniors for success. We want to create a unique space to have meaningful conversations and build lasting relationships during this transition. And don't worry, it will still be just as fun!

What is the Senior Trip?

The Senior Trip is designed to create a healthy transition for students starting and ending their senior year of high school. We want to create opportunities for conversations around this important transition, and help seniors build a foundation on Jesus before they begin adulthood.

What's happening in July?

In July, we will be focusing on serving. We will be partnering with Appalachian Service Project for a local mission's trip, and taking a foreign mission's trip to Nicaragua.

What grades can participate in the mission's trips?

Our local mission's trip Appalachian Service Project is for all students in BR Youth, from our rising 6th graders to our 2022 graduating seniors. The foreign mission's trip to Nicaragua is for our high school students, from our rising 9th graders to our 2022 graduating seniors. Both mission's trips have limited spots; stay tuned and register early!
